

Horizon Mentors: Program Guidelines

Future Horizons Youth Foundation | 1-on-1 Youth Mentorship Framework

Program Framework

The Horizon Mentors initiative pairs adult community volunteers with youth facing academic or social hurdles. Matches commit to a minimum of one academic year, meeting weekly for structured engagement.

Core Objectives

1. Improve academic engagement and classroom attendance.
2. Develop emotional resilience and interpersonal communication skills.
3. Expose mentees to diverse professional career opportunities.

Volunteer Screening & Safety

All mentor applicants undergo a rigorous multi-stage vetting process: multi-state criminal background checks, reference verifications, a 1-on-1 interview, and 12 hours of mandatory trauma-informed mentor training.
